

February 2010

Dear Friend of Life,

Good people can still be lost people.

David and Ursula in Switzerland are examples of that. I will tell you more about them in a minute.

I will also explain how **your gift of \$12** can help reach people like them for Christ.

My heart is burdened for **the people of Switzerland today**. It aches for them because I know that most of them are lost, even though they are **good**.

Lost!

Think about that word for a second. Think about its **eternal implications**. They face an eternal destination separated from God. It seems unfair because the Swiss people have been known throughout the ages as **good people** — people of peace and charity.

But it's not enough to be good and charitable! You have to know Christ!

Today, friend, I hope that my heartfelt words in this letter will make my compassion for the people of Switzerland contagious. I want to transmit my burden for the Swiss people to you.

I also hope you will want to be Jesus' hands in Switzerland by helping Life Publishers provide the *Enrichment* journal for Swiss pastors who are reaching their people for Christ. This simple minister's magazine is a valuable evangelistic tool in their hands.

Just \$12 will provide one pastor a copy of *Enrichment* for a full year (4 issues).

Dozens of Swiss pastors love *Enrichment* because they find it so helpful and inspiring. They need inspiration and the Spirit's anointing to reach people like David and Ursula, a middle-

(over)

aged couple who run a bed and breakfast in a beautiful part of central Switzerland.

Every day, they get up early and prepare a traditional Swiss breakfast for their guests. Then they go for a hike through the scenic Bernese Oberland. In the evenings they eat with friends, play music and drink the finest wines and the richest beers.

To the Swiss people, THIS is heaven.

They seem to be **good people**. They love to serve others. They hate injustice. They are compassionate and peace-loving. They are gentle.

However, David and Ursula are also atheists. **They are lost without Jesus Christ as their Savior** and are racing towards eternity without Him. My heart breaks for them and their countrymen. They think nothing of alcohol and addiction, and they are so used to the public pornography on their television and in stores that they hardly notice it any more.

As you know, it's not enough to be a **good** person. One must know Christ!

In Switzerland atheism, alcoholism, addictions and pornography are glamorized everywhere. Behind the beautiful architecture and culture is spiritual darkness that only the Holy Spirit can penetrate. Everywhere are thousands of old, empty churches from centuries past.

How will these people learn about Jesus unless someone else goes to them with the gospel? (*Romans 10: 13-15*)

Our brethren in Switzerland are doing just that, and I would like to ask you to invest in their ministries by providing the gift of *Enrichment* in their heart language, German.

Here's another way to look at it too . . .

Every Swiss pastor who gets your gift of *Enrichment* **will understand that you are praying for their country and that you believe in them**. What a great encouragement you can be today by sending a gift of only \$12!

Remember, to produce *Enrichment* in German costs Life Publishers \$12 per pastor.

The articles, insights and inspirational testimonies in *Enrichment* are written from a Pentecostal perspective. European pastors love that!

Pastor Rafael von Arx, from Oberkulm, Switzerland, says it well:

“Besides its clear Pentecostal focus, *Enrichment* offers practical themes with

(next page)

a broad, theological foundation. For this reason, *Enrichment* represents an important contribution to my daily life.”

Pastor Markus Burkhardt of Pfingstgemeinde Zofingen, Switzerland, asked us to share his comments with you as well:

“Aided by the Holy Spirit, pastors are constantly challenged to bring fresh impulses to the life of the church. With its sound articles, *Enrichment* represents a continual and welcome aid in this task.”

What a blessing you can be today to a Swiss pastor (for a whole year) for just \$12.

Every pastor who reads *Enrichment* gets new Pentecostal inspiration for their ministry. This is a great way for **you and me to partner together in evangelizing Europe**, and also express to pastors there that we support them, are praying for them, and believe in them.

Would you like to partner with Life Publishers, and bless Swiss pastors today?

You can give a gift of \$12 to bless 1 pastor; or \$24 to bless 2 pastors; \$48 to bless 4 pastors; \$96 to bless 8 pastors; \$120 to bless 10 pastors; \$240 to bless 20 pastors or some other amount which the Lord might lay upon your heart.

Switzerland is just one European country that we **MUST** recognize as a real mission field because there are so many people there like David and Ursula who are **good people**, but they are still **lost people**.

Your gift today will help Swiss pastors find new Pentecostal inspiration in the pages of *Enrichment Journal*, and I believe God will use them mightily to proclaim the good news of Jesus Christ throughout the land.

Please give generously. Many pastors would be so blessed to **receive from you** the gift of *Enrichment* this year.

And remember to pray for these **good people** who are still **lost**.

Yours for the people of Europe,

Guy Highfill
Director

P.S. **Good people can still be lost people**. My heart breaks for them. Partner with our pastors in Switzerland who are reaching their people for Christ. Your gift will be an encouragement.
